## PROFILE SUMMARY

Young professional with a keen interest in technology and a robust skill set, poised to thrive in a dynamic tech environment. Actively seeking an entry-level opportunity in the IT industry for web development and software development roles. Committed to leveraging and enhancing skills, embracing emerging technologies, and driving impactful outcomes.

## EDUCATION

<b>Krishna Engineering College, Ghaziabad</b> Bachelor of Technology; CGPA: 7.89	Ghaziabad, India Oct 2021- June2025
<b>C K S D PUBLIC SCHOOL, Baraut</b> Intermediate : percentage: 86	Baraut, India May 2021
<b>C K S D PUBLIC SCHOOL, Baraut</b> High School : percentage: 87	Baraut, India May 2019

## WORK HISTORY

### CSRBOX, Remote, Front-End Developer, July 2024

- Gained practical frontend development experience through a one-month internship at CSRBOX. Successfully contributed to tasks by implementing Web Development skills. Enhanced problem-solving and teamwork abilities in a professional environment.

### IBM Skills Build, Remote, Front-End Developer, August 2024

- Completed a one-month frontend development internship at IBM SkillsBuild, where I developed ClimateVerse - a web application to calculate carbon footprint, AQI, and tree plantation requirements. Gained practical experience in HTML, CSS, and JavaScript, and utilized Figma for UI/UX design.

## PROJECTS

### ClimateVerse: HTML/CSS/JS/React/Figma

- Developed web application to calculate carbon footprint, AQI, and tree plantation requirements using HTML, CSS, and JavaScript.
- Created user-friendly interface with Figma for data input and result visualization.
- Implemented algorithms for accurate carbon footprint calculation and tree plantation recommendations.

### Removing Green Screen with Canvas: HTML/CSS/JS

- Developed green screen removal tool using HTML, CSS, and JS.
- Implemented image processing logic for background replacement.
- Created user-friendly interface for image upload and output.

### Amazon Clone |Using HTML/CSS

- Built Amazon-like-E-commerce interface using HTML and CSS.
- Demonstrated proficiency in HTML structure and CSS Styling.
- Developed responsive and visually appealing shopping experience.

## SKILL SUMMARY

- **Languages:** C(Programming), Java, HTML, CSS, JavaScript, MySQL
- **Academic:** DBMS, Data Structures, OOPs, Computer Networks
- **Software:** VS Code, Jupyter Notebook, Google Collab, Github
- **Softskills:** Interpersonal Skills, Team Spirit, Time Management, Problem Solving

## CERTIFICATE

<b>Data Analytics (Coursera)   <u>CERTIFICATE</u></b> ◦ . Completed Coursera Data Analytics course, building foundational skills in data analysis and interpretation.	<b>March 2023</b>
<b>HTML and CSS (Udemy)   <u>CERTIFICATE</u></b> ◦ Acquired foundational web development skills through Udemy's HTML and CSS course.	<b>March 2023</b>
<b>Python Programming (Udemy)   <u>CERTIFICATE</u></b> ◦ Mastered fundamental Python syntax, proficiently utilizing control flow, loops, functions, and data structures.	<b>March 2023</b>
